Dear Dr. Soulier,

Your application for hospital privileges has been carefully reviewed by the Credentials Committee and the Medical Staff at Wasatch County Hospital.

Because of the difference in educational background, the Medical Staff would not be comfortable monitoring the quality of patient care without help of an orthopedic surgeon. We do not have an M.D. on our staff qualified to evaluate and proctor the quality of podiatric care given to the patients in our hospital.

Therefore, in the interest of good patient care we respectfully decline your application.

As outlined in the Medical Staff ByLaws, your application will remain in our file for two years at which time you may re-apply.

Sincerely,

R. Raymond Green, M.D.  
Chief of Staff
